

Hunger Action Season

It's Hunger Action Season, a nationwide movement to raise awareness about food insecurity and inspire action. At West Suburban Community Pantry (WSCP), we're inviting local businesses to join us in ensuring every neighbor has access to healthy food with dignity. Whether you're a small business, corporation, civic organization, or community partner, there are meaningful ways to make an impact.

Host a Food or Fund Drive

Engage employees and customers in collecting food, personal care items, or financial contributions to support families experiencing food insecurity.

Create an Employee Giving Challenge

Encourage friendly competition among departments, teams, or locations to raise funds and awareness.

Become a Corporate Sponsor

Support WSCP's mission through a corporate gift and demonstrate your commitment to building a stronger, healthier community.

Organize a Meal Kit Drive

Invite employees to assemble meal kits using a provided ingredient list, then collect and donate them to WSCP.

Volunteer as a Team

Bring employees together for a hands-on volunteer experience that supports our neighbors and strengthens workplace culture.

Promote Hunger Action Season

Use your social media channels, newsletters, and customer communications to help spread awareness and inspire action.

Why Partner with WSCP?

Each week, WSCP serves thousands of neighbors across DuPage and Will Counties with nutritious food and support. Your business partnership helps:

- Provide fresh, healthy food to local families
- Support children, seniors, and working households facing food insecurity
- Expand awareness of hunger and its solutions
- Build a stronger network of caring businesses and community leaders

Your Impact

\$100 helps provide more than 100 meals to neighbors in our community.

A workplace food drive can stock pantry shelves with essential items.

A team volunteer event helps prepare and distribute food efficiently and with dignity.

Together, we can turn awareness into action.
